

Assobiotec, the Italian Association for the development of biotechnology, which is part of Federchimica, **Innovhub SSI** and the **Italian Biocatalysis Center** invite companies and research centers to the 3rd edition of the Italian Forum on Industrial Biotechnology and Bioeconomy (IFIB) which will be held on October 22-23, 2013 in Naples (Italy).

The workshop is aimed at making a survey of research projects in the industrial biotechnology field with the goal to strengthen the network of industrial biotech in the Euro- Mediterranean area and to promote industry-university partnerships.

Participation to the workshop is free of charge. Registration is mandatory. The official language of the workshop will be English.

In the framework of the IFIB workshop the “**EEN Biotech and Bioeconomy Partnering Event - IFIB 2013**” is organized to offer the chance to meet potential partners in pre-arranged face-to-face bilateral meetings in order to establish new cooperation opportunities in research, technology transfer and business.
