BKSTS – The Moving Image Society is delighted to welcome you to NAB 2010, the definitive international electronic media event. The increasing influence of digital technology within the global broadcast production industry has created a need for the dissemination of technical information in all aspects of acquisition, production and transmission and has encouraged innovation in all areas of equipment design and manufacture. The exhibitors at the 2010 exhibition will help to demonstrate the level of excellence that UK companies have to offer to overseas clients by providing a well tried and tested level of international expertise.

Intellect welcomes its members to NAB 2010.

This is the 8th year that Intellect has brought a UK group to NAB. The significant number of UK companies at this year's event once again reflects and represents the strength, diversity and innovation in the UK's broadcast sector. As a world leader in broadcast technology, the UK can offer a breathtaking spectrum of products and services.

Intellect is aware that these continue to be exciting times for the broadcast industry. As the UK's main ICT Trade Association, we are working to ensure we support and deliver valuable services to the UK sector at home and abroad.

I strongly encourage you to visit the UK companies as part of your visit to NAB 2010 and invite you to come along and learn more about our work and how we can help connect you to the UK's dynamic broadcast industry.
